Daily care line

Taheebo, containing anti-cancer and antioxidant properties

TAHIIBO™

One of the active ingredients in Taheebo, Betalapachone, is well-known for its excellent anti-cancer effects, as it inhibits the growth of cancer cells. It is also known to alleviate loss of appetite when used alongside chemotherapy. Additionally, it has functions such as immune enhancement, anti-inflammation, antioxidant, and blood sugar regulation, with no known side effects reported to date.

[Taheebo Daily Health Can]

Hydrolytic Dental Gum S-Preventeeth

Hydrolytic Dental Gum M/L-Preventeeth

An enzyme toothpaste that doesn't require brushing
- **StomoAct BEO**

- Gum inflammation relief and prevention
 - Allantoin
 - Tocopherol acetate
- Antibacterial and tartar inhibition (enzyme ingredient)
 - Bromelain
 - Lysozyme
- Oral immune system strengthening (probiotics)
 - Bifida Ferment Filtrate

Step-by-step oral care line

Step 1-2 for easy daily care

StomoAct[®] Step 1-2 daily care

An enzyme toothpaste that can address bad breath and tartar with just 1-2 steps, even in the early stages of tooth decay, and low allergen dental gum with 500-dalton hydrolysis for allergy-free worry.

Preventeeth Gum, responsible for physical care & **Oramune powder**, responsible for oral immunity and bacteria care can be **combined One!**

The image shows a large white and orange bag of StomoAct Chew dental gum. The bag features the following text: 'StomoAct[®] Oramune[®] Chew', '소형견용 저알러지 가수분해검', 'Stay-C[®] 50', 'β-Glucan', 'IgY-GP', and '15EA Net Wt. 150g (5.3oz) (15EA)'. To the right of the bag, a callout box says 'IgY-GP toxin-neutralizing antibody titer 175ml/2EA'. Below the bag, a dog is shown chewing on a piece of the gum. A callout box points to the dog's mouth with the text 'Designed to prevent tooth damage during chewing and to avoid leftover gum core after consumption'. Another callout box points to a close-up of the gum's star-shaped core with the text 'Central hole for preventing tooth damage'.

Step-by-step oral care line

Step 3-4 for you to choose and feed according to preference

StomoAct®

Eating care for steps 3-4

A 3-4 step oral care product with four types, all containing the same ingredients below the daily dosage according to preference
