Executive Summary

1. Proven in over **3,000 animal hospitals** in Korea:

Our products have been validated for effectiveness and safety in more than 3,000 veterinary clinics, ensuring trust and reliability.

2. **Extended pet lifespans, limited traditional care:**

With **pets living longer** due to better care and medical advancements, traditional veterinary treatments often **fall short in supporting comprehensive recovery and preventing recurrence**.

3. **Challenges in daily pet care:**

Pet owners frequently **face difficulties in administering medications and maintaining regular care practices**, such as brushing their pets' teeth.

4. **Few options for minor yet concerning symptoms:**

There are **limited choices for effectively addressing occasional symptoms** like **vomiting and diarrhea**, which can be concerning for pet owners.

5. **Targeted, evidence-based supplements:**

We offer **scientifically-backed supplements** designed to address **specific symptoms**, helping pet owners provide better care and support for their pets' health.

Recognition

Signatureby exhibits at Korean pet exhibitions six times a year and is loved by many pet owners

What we have

We offer a **wide range of products** for pet health care including medication aids, oral care, and various supplements
